🧰 WORK EXPERIENCE

Senior Software Engineer, *Pixelhouse*
Present | Australia (Remote)
- Helped maintain and enhance a startup project by supporting both the frontend in Angular and the backend in Laravel. Contributed to fixing bugs, optimizing performance, and adding improvements to ensure the application remained stable and user-friendly.

Senior Developer, *Connext Global Solutions*
2023 Aug – present | Angeles, Philippines
- Led a startup project to develop a full-stack job application management system, building the frontend in React and backend in NestJS, and deploying on AWS (EC2, S3, Nginx) for scalability, reliability, and performance.
- Maintained and supported an RPA application built with UiPath.

Senior Software Engineer, *Cloudstaff*
2022 Jun – 2023 Aug | Angeles, Philippines
- Developed and maintained web applications using Angular, SLIM PHP, Laravel, and React.
- Added new features and enhancements to an existing mobile application using React Native.

Applications Developer,
Connext Global Solutions
2021 Jun – 2022 Jun | Angeles, Philippines
- Developed and maintained a web application using Angular and SLIM PHP.
- Created UiPath automations to streamline healthcare insurance eligibility checks.

Java Programmer, *Titus Global Tech*
2021 Feb – 2021 Jun | Clark, Philippines
- Developed and maintained a web application using Angular, Groovy, Java, and an in-house framework.
- Maintained databases and authored PostgreSQL stored procedures.

Mobile Developer,
Tigernet Hosting and IT Services
2018 May – 2021 Feb | Guagua, Philippines
- Built a cross-platform mobile application for the company's Learning Management System using Xamarin.Forms and C#
- Integrated third-party services, including PayPal for payments and BigBlueButton for virtual classrooms

Matthew Miclat
Software Developer
